

Layout Admin

Overview

- Download the latest .tgz package here: <https://github.com/sugarcrlabs/LayoutAdmin/releases/latest>
- Load the package in your target instance using Module Loader
- Log in as an admin user
- Navigate to 'Layout Settings' area of Admin menu
- Select entry 'Layout Settings'
- List of all modules will be shown. Set number of columns for each module's record view and press the accompanying Save button.

Admin Menu

Admin Menu will have a new area labeled 'Layout Settings.'

Layout Settings

Set the column numbers to be shown

[Layout Settings](#)

Determine column layout for modules

Admin Menu

Admins can define, on a per module basis, how many columns the Record view's Business Card will show.

Layout Settings

Cancel

Module Name	Number of columns	Changed from Administration tool	
Accounts	<input type="text" value="2"/>	No	Save
Bugs	<input type="text" value="3"/>	Yes	Save
Calendar	<input type="text" value="2"/>	No	Save
Calls	<input type="text" value="2"/>	Yes	Save
Campaigns	<input type="text" value="2"/>	No	Save
Cases	<input type="text" value="2"/>	No	Save
Contacts	<input type="text" value="2"/>	No	Save
Contracts	<input type="text" value="2"/>	No	Save
Customer Journeys	<input type="text" value="2"/>	No	Save
Documents	<input type="text" value="2"/>	No	Save
Emails	<input type="text" value="2"/>	No	Save
Forecasts	<input type="text" value="2"/>	No	Save
Home	<input type="text" value="2"/>	No	Save

New Business Card View

Here we can see 3 columns for the Bug Business Card view.
